

SUCCESS AND FAILURE

Purpose of the process:

Examine your achievements and your failures in your life from a different angle. What do I see? How is my success perceived by others? Do my failures have an effect on others? What do I really aspire?

How to play:

1. Pause.
2. Select 3 cards and follow the process.
3. As you pick your card, it is important to try to mentally connect to the question, the topic, and your deeper thoughts.
4. If you pick your card randomly, feel free to replace a card if you really can't connect to it.

1. What is the greatest success of my life?

2. What is the greatest failure of my life?

3. What do I wish to succeed in, that I always failed until now?
